

An unforgettable meal!

Have you ever had an unforgettable meal in your life? For me, I had such a wonderful dinner with my family. It all started last summer holiday when a Turkish restaurant was opened in the capital city. Advertisements had been distributed everywhere that everybody was talking about it. Everyone who had visited the restaurant was amazed by their food and services. We had heard a lot of people praise it.

One day, my parents decided to visit that restaurant and have a meal there. We were so enthusiastic because of that. We wanted to try its food after hearing a lot about it. We immediately got ready and rode the car heading to the capital city. When we arrived at the restaurant, we were mesmerized by the design of the restaurant.

On our way to enter two polite and friendly waiters welcomed us warmly. They led us to a vacant table, and we took our seats. Tables were very organized; the atmosphere was calm and quiet, and the seats were very comfortable.

A few moments later, a waiter brought the menu, and we were entirely taken by the variety of food it comprised. It was difficult to choose as everything seemed delicious. After we had ordered we did not wait for a long time until our food was ready. We started eating and we were amazed by the taste of the food. It was such a wonderful meal for stop after we had eaten the main course, they brought us some desserts that were free. That was delicious too. Afterwards call mom will you paid the bill which was reasonable compared to the tasty food and fabulous atmosphere.

Finally, we went back home after we had the best meal ever. We were all happy. My family and I were not fans of eating out. However, after we had tried this restaurant, we became addicted to it. That day was completely carved in my memory and I still remember its details as if it happened yesterday.
